# OUR WAY IS TOMORROW.

Time and again in our almost 200-year history, GRAWE has had to cope with challenging times. This was also the case in 2022: As soon as the Covid-19 pandemic seemed to have been overcome, an event followed that seemed truly unthinkable: War returned to Europe.

As difficult as the situation was and is, especially for our colleagues in Ukraine: Overall, GRAWE was able to achieve a good result this year. This once again reaffirms our continuous efforts to overcome all challenges, to learn from them and to grow with them.

Our resilience, our ability to deal with unforeseen events and cope with them in a positive way, is very high – this annual report provides an overview of our most important parameters. But resilience can never be high enough: We continue to work on improving it every day with determination, confidence and a clear vision, based on the stable foundation of GRAWE's world of values.

Note regarding rounding and figures in this annual report: There may be mathematical differences due to computerised rounding when aggregating amounts and percentages.

Gender-specific wording: To make the text easier to read, we have dispensed with any gender-specific differentiation in this report. Corresponding terms apply to both genders in equal measure.

## Foreword by the Chairmen of the Board

Dear Readers,

With 2022, we leave behind a year that was extraordinary in many respects. We started in January full of new energy and optimism, but since 24th of February we have been confronted with events that we mostly know only theoretically and from history: A war in the middle of Europe with the participation of nuclear major powers. The resulting consequences do not only impact the company, they also affect every one of us personally.

Despite these events, we encourage looking positively into the future, as Grazer Wechselseitige Versicherung has already experienced many ups and downs in its more than 190-year corporate history. Then as now, adaptability and foresighted planning are the key factors for our sustainable success, in order to remain resilient under the changed framework conditions as well to be prepared for future developments.

In a time characterised by high inflation rates and peak prices in the energy sector, it is most important for us to stand by our customers and business partners as a reliable partner. Individual support and the development of sustainable solutions have always been our overriding premises and are in demand more than ever.

The success of this strategy is also proven by the history of Grazer Wechselseitige Versicherung. Founded in 1828 by Archduke Johann as a regional fire insurance company, the Group today consists of 18 subsidiaries with branches in 13 countries in Central, Eastern and South-Eastern Europe. In addition to its core business in insurance, Grazer Wechselseitige Versicherung also operates as a reliable partner in the financial and real estate sector. With this broadly based business model, it is possible to offer customised solutions for almost all customer groups.

In the past financial year, the GRAWE Group was able to record a total premium growth of 11.5% in the insurance business, driven by the 16.2% increase in property and casualty insurance. The GRAWE Group's result from ordinary activities amounted to EUR 105.7 million in 2022 and the net profit for the year amounted to EUR 70.4 million. Despite the changing framework conditions and the accompanying challenges, the GRAWE Group remains on course for success.

Grazer Wechselseitige Versicherung in Austria was also able to continue on its course of steady growth. Premium income increased by 10.5%, and despite increasingly frequent and intense extreme weather events and particularly high volatility on the financial markets, a result from ordinary business activities of EUR 49.3 million and a net profit for the year of EUR 41.9 million could be achieved.

We would like to thank our clients and business partners for their loyalty. Recommendations are the best indicator of customer satisfaction, so we are particularly proud that we have received the „Recommender Award“ from the Austrian Financial Marketing Association (FMVÖ) for 10 years in a row. In 2022, Grazer Wechselseitige Versicherung AG won in the category „nationwide insurance“ and was also awarded the rating „outstanding customer orientation“.

As an employer, it is utmost important to us that not only our customers, but also and in particular our more than 5.000 employees can rely on GRAWE Group in the long term. They are one of the key factors for the consistent development of our group and are fundamentally responsible for our success. We would like to express our sincere thanks for their high level of commitment, their solution- and goal-oriented way of working and for the trust that they have shown in our company.

The careful handling of resources has the highest priority throughout our companies, which is why we are assigning great importance to sustainability in all areas. Both in capital investment and in the area of building and refurbishment of our properties, we are committed to a sustainable course. For example, suitable roof areas of our buildings are already being equipped with photovoltaic systems in the short to medium term. On the one hand, this is to generate energy to supply the company's own facilities, and on the other hand, environmentally friendly electricity can be supplied to the power grid.

Despite the challenging conditions, GRAWE Group was able to make very good use of the past financial year and we can therefore look back on a gratifying result. True to the motto of the current annual report, „Our way is tomorrow“, we want to proactively shape our tomorrow and are optimistic and confident that we will continue to be as successful in the future. Finally, we would once again like to offer our sincere thanks all our partners, customers and employees.

Yours sincerely,

Klaus Scheitegel

Yours sincerely,

Othmar Ederer
